

PENGUIN - FOR KIDS

Rua da Fontinha, nº 885 | 4415 - 592 Crestuma - Porto | Portugal Tel. 227 639 176 | Fax. 227 639 177 | Telm. 962 559 764 info@elio-kayaks.pt | www.elio-kayaks.com

PENGUIN

CHARACTERISTICS

The small beginner kayak named PENGUIN was born in 2006 and it came to cheer the kids.

With small and nice size, it's a kayak that doesn't pass imperceptible.

The kids feel more confident and comfortable when they paddle the first time with a PENGUIN kayak. The cockpit has enough room to give confidence to the kids when they get in and out the kayak.

The prow proximity transmits to the small athletes a control and domain sensation of the kayak.

The fine size front and low cockpit never allows that the small beginners hands get hurt in the cockpit edges. The hull, of small curvature, minimize unstable situations and convert them in pleasant emotions and excellent float moments even when they leave the paddle to wet the hands or to speak with its friends.

The kayak presents the following dimensions:

Length 4200 mm | Width 490 mm | Height 220 mm | Weight: 11,0 kg (F.V.)

PRODUCTION

We produce in glass fiber, glass/Spheretex fiber, Kevlar or Vectran. In the right table are presented some of the colors that usually we use:
